Storm Data and Unusual Weather Phenomena

June 2004

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------	---------------------------------	---------------------------------	------------------------------	--------------------

MINNESOTA, Central and South Central

Wright County

Countywide	08	0020CST 0040CST			0	0			Thunderstorm Wind (MG56)
------------	----	--------------------	--	--	---	---	--	--	--------------------------

Hundreds of trees and power lines were downed and a handful of buildings were damaged across the northwest portion of the county. The hardest hit areas included the communities of Annandale, Corinna Township, Maple Lake, St. Michael, Clearwater, and South Haven. Significant tree damage was also reported at Clearwater Lake, Pleasant Lake, Lake Sylvia, Schroeder County Park, Camp Friendship, and Lake Maria State Park. Highway 24 near Clearwater Lake was blocked by downed trees, and boats and docks on the lake were damaged. A wind gust of 64 MPH was recorded in Maple Lake at 1:35 AM CDT. A gust of 52 MPH was recorded in Cokato and a gust of 47 MPH was recorded in Annandale at 1:30 AM CDT.

Meeker County

Countywide	08	0030CST			0	0			Thunderstorm Wind (EG55)
------------	----	---------	--	--	---	---	--	--	--------------------------

A number of trees and power lines were downed onto yards and structures in the Dassel, Darwin, Knapp, and Lake Jennie areas. The Lake Washington area was also hit hard by downed trees and power lines which damaged several vehicles and structures. High wind also flipped boats and docks and damaged a sunroom.

Sherburne County

Zimmerman	08	0052CST			0	0			Hail(1.75)
-----------	----	---------	--	--	---	---	--	--	------------

Quarter to golf ball sized hail fell.

Kandiyohi County

4 W Atwater	08	0153CST			0	0			Hail(0.88)
-------------	----	---------	--	--	---	---	--	--	------------

Dime to nickel sized hail fell near Big Kandi Lake.

Stearns County

Albany	08	0630CST			0	0			Hail(0.75)
--------	----	---------	--	--	---	---	--	--	------------

Blue Earth County

4 SW Mankato	08	2000CST			0	0			Hail(1.00)
--------------	----	---------	--	--	---	---	--	--	------------

Scott County

Countywide	08 09	2200CST 0400CST			0	0			Heavy Rain
------------	----------	--------------------	--	--	---	---	--	--	------------

A total of 5.4 inches of rain was recorded at Belle Plaine.

Steele County

Countywide	08 09	2200CST 0400CST			0	0			Heavy Rain
------------	----------	--------------------	--	--	---	---	--	--	------------

An estimated 3 to 5 inches of rain fell countywide. A total of 3.5 inches was reported in Owatonna

Watonwan County

Countywide	08 09	2200CST 0400CST			0	0			Heavy Rain
------------	----------	--------------------	--	--	---	---	--	--	------------

A total of 3.7 inches of rain was reported in Sleepy Eye.

Blue Earth County

Countywide	09	0200CST 0600CST			0	0			Flash Flood
------------	----	--------------------	--	--	---	---	--	--	-------------

Several roads, basements, waterways, and low lying areas were flooded by high water and muddy debris after up to 6.5 inches of rain fell.

Nicollet County

Countywide	09	0200CST 0600CST			0	0	85K		Flash Flood
------------	----	--------------------	--	--	---	---	-----	--	-------------

Several roads, including Highway 169 between Mankato and St. Peter, were deluged by mudslides and rushing water after up to 6 inches of rain fell. Numerous basements and low lying areas were also flooded.

Storm Data and Unusual Weather Phenomena

June 2004

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons		Estimated Damage		Character of Storm
					Killed	Injured	Property	Crops	

MINNESOTA, Central and South Central

MNZ075>076-083>084 **Nicollet - Le Sueur - Blue Earth - Waseca**

09	0315CST	0	0	Flood
	1100CST			

Water remained high along waterways, low lying areas, and roads through the morning of the 9th.

Torrential downpours fell from a line of thunderstorms that trained over south central Minnesota between the evening of the 8th and the pre-dawn hours of the 9th. A total of 3.5 to 6.5 inches of rain in 8 hours caused significant flooding in Blue Earth and Nicollet counties and minor flooding in Le Sueur and Waseca counties. An estimated 5 percent of corn and soybean crops were lost to flooding across Blue Earth and Nicollet counties during this event.

In Blue Earth County, rainfall totals included 7.05 inches in Lime Township just north of Mankato, 6.51 inches at Mankato Municipal Airport, 6.24 inches in Mankato just west of MSU, 5.7 inches five miles southwest of Lake Crystal, and 4.59 inches at South Central Technical College in Mankato. Area storm drains and culverts were unable to keep up with the deluge of rain, especially in the Mankato, Madison Lake, and Lake Crystal areas. Water backed up into retaining ponds, fields, numerous basements, roads, waterways and other low lying areas. Third Avenue in Lime Township just north of Mankato lost 30 feet of roadway after a large culvert was washed out. Saturated soil led to a mudslide on Warren Street near MSU. A retention pond at Country Club Estates in Mankato overflowed into nearby homes with walkout basements. Flooding was also reported near the hospital in hilltop Mankato.

In Nicollet County, 2.5 inches was recorded in St. Peter. A portion of a 50-foot-tall hillside gave way along the southbound lanes of Highway 169 between Mankato and St. Peter around 3 AM on the 9th. This caused a foot of mud and downed vegetation to pour across all 4 lanes of the highway. The northbound side of the road remained closed through Noon on the 9th but the fear of more mudslides kept the southbound side of the highway closed through the 10th. In addition, a large mudslide which included trees and vegetation from a steep hillside occurred along Lake Street in North Mankato on the 10th. A retention pond near Dakota Meadows Middle School overflowed onto Howard Drive in North Mankato. Significant flooding was also reported in hilltop North Mankato and Center Street and McKinley Avenue in lower North Mankato. Two small bridges south of St. Peter were damaged by swiftly moving water.

In Waseca County, 2.46 inches of rain was reported in Waseca. An estimated 5 inches of rain fell over the Janesville area. Up to 80 basements were flooded and several lawns and streets were covered by water across town. Janesville's city park and golf course were also under water. In Le Sueur County, 4.7 inches was recorded at New Prague.

MNZ085

Steele

10	0000CST	0	0	Flood
12	2359CST			

Heavy rainfall across the Straight River basin upstream of Owatonna on the 9th caused high water to flow through much of Steele County between the 10th and the 12th. Moderate flooding along the Straight River led to several road closures across the county including County Road 18 and 22nd Avenue Southwest. In addition, 20 basements were flooded in Owatonna, mainly in the Crossroads development. Two families were displaced by flood damage and were sheltered by the Red Cross.

Redwood County
